## Meet Jeremy

Jeremy joined the Sunrise team back in August 2003. Since being hired, Jeremy has dabbled in many different office tasks and is now established in quotes as our senior quotes person.

Jeremy has become a great leader in the Sunrise office. He is always eager to help his fellow worker and is patient when explaining and teaching. Whenever a decision needs to be made, he is never shy in stepping up to make those decisions.

Jeremy has a very steadfast work ethic. He refuses to give up and always works his hardest.

“Jeremy is our lead quotations salesman who has really stepped up to the plate this past year. He has worked himself into a position of great responsibility throughout the entire office. The desire he has shown to educate himself and others is quite impressive and the personal satisfaction he is finally getting from those efforts is quite evident. I truly enjoy seeing a person who works hard to succeed in whatever they are doing and becomes more than they thought they would. That is the case with Jeremy. He not only works through the difficulties of his position but usually exceeds what is expected of him.

It is my opinion that he is looked at as the go to guy by a many of our customers in the industry and I know he is for our outside salesmen. I expect great things from him in the future!” (Quote from Robert McVicar).

We all love having Jeremy here with us at Sunrise. His unwavering work ethic and knowledge of product is a great model for all of us to follow.

# Luminaire

## Vandal Resistant Lighting

Luminaire's products have been specifically designed for exposure to and survival in the harshest environments. Installation sites include correctional facilities, college dormitories, schools, parking structures, banks and access areas for both public and private facilities. In addition to illuminating unattended public areas, these fixtures utilize energy efficient light sources and will provide the facility owner measurable savings in operating costs.

Luminaire's fixtures feature proprietary injection molded polycarbonate lenses, UV stabilized for maximum life and secured with tamper resistant, stainless steel

screws. Housings are constructed from heavy gauge aluminum, zinc coated automotive quality steels, and high pressure die cast aluminum. Stainless steel and cadmium hardware are used exclusively, and all internal parts are mechanically fastened.

Luminaire vandal resistant fixtures feature a lifetime warranty. Luminaire Lighting Corporation will repair or replace any fixture damaged due to vandalism for the lifetime of the installation.

***YOUR THOUGHTS AND INPUT***

So many options and choices! Need more information? Look no further than your Sunrise Rep. The answers you are looking for may be nothing more than a phone call or e-mail away.

Your questions may be things that are on the minds of others as well and could be a subject in our new weekly newsletter. So, if you have a topic or product that you would like to see more information on, please send the request to Janna and we will be sure to include it in a future issue.

Thank you!
